SAUD SALIM AL MAZROUEI

DIRECTOR, **SAIF ZONE**

With the global spread of COVID-19 since early this year and the consequent disruptions in supply chains across industries, Sharjah Airport International Free Zone Authority (SAIF ZONE) has adopted a series of measures to renew business continuity plans, create opportunities, and increase future resilience.

The multi-billion financial stimulus package of the Sharjah government sent an economic lifeline to affected sectors in Sharjah, helping them recover quicker by rising above the challenges imposed by the pandemic. The launch of the second stimulus package by the Sharjah government in November is furthering business continuity and development in various fields and mitigating the economic impact of the coronavirus outbreak.

Over the years, SAIF ZONE has been constantly innovating and adapting to meet the evolving needs of its investors, and we quickly stepped-up efforts with the outbreak of COVID-19 to expand our online services to allow all members of our investor community to seamlessly carry out their day-to-day activities without having to physically visit the free zone.

The free zone's transition towards 'smart' transactions that commenced few years ago eased the shift to a fully digital platform at a time of great uncertainty. We have also worked closely with our investors to identify the impact of the pandemic on their business operations. Accordingly, and in line with the government stimulus packages, SAIF ZONE has provided exemptions for several tariffs and fees to improve the economic resilience of our investor community.

Understanding the changing business dynamics and to create value for our investors in high-priority areas, SAIF ZONE completed development works on its U2 Area – a dedicated district for stores and warehouses, as part of its efforts to build capabilities in an environment of increased competition.

If there is one thing that this pandemic has taught us, it is that every crisis has its challenges that do open new opportunities to focus on. Sharjah's continued position as a leading global business hub gives us ample reasons to remain optimistic about the future. With the shift in consumer preferences and business models, SAIF ZONE remains as committed as ever to support our business community and to forge stronger ties with them in the post-COVID-19 era.

Going forward, SAIF ZONE will continue to be guided by the aim of enhancing the ease of doing business as we support companies to remain flexible and shift focus to activities that can safeguard their businesses. Our goal, as always, is to make SAIF ZONE and Sharjah, the destination of choice for SMEs, business entrepreneurs, and investors from around the world.

I look forward to your continued support in realising this vision as we work towards maintaining operational resiliency and adapt to the long-term impacts of a fast-changing business environment.

SHARJAH PORTS, CUSTOMS AND FREE ZONES AUTHORITY AWARDED

CHAIRMAN OF THE SHARJAH PORTS, CUSTOMS AND FREE ZONES AUTHORITY HONOURED WITH THE 4TH FINANCIAL PERFORMANCE EXCELLENCE AWARD

Sharjah Airport International Free Zone Authority (SAIF ZONE) was honoured with the "Medal of Independent Leader in Financial Performance" at the awards ceremony.

HE Sheikh Khaled bin Abdullah bin Sultan Al Qasimi, Chairman of the Sharjah Ports, Customs and Free Zones Authority, was honoured with the 4th Financial Performance Excellence Award launched by the Sharjah Central Finance Department (SCFD) to honour distinguished institutions and individuals in the financial field.

At a virtual ceremony held on November 30, 2020, at the headquarters of the Police Sciences Academy in Sharjah, Sheikh Mohammed bin Saud Al Qasimi, Chairman of the Sharjah Central Finance Department, bestowed the Award following the honouring of Sharjah Airport International Free Zone Authority (SAIF ZONE) with the "Medal of Independent Leader in Financial Performance."

The ceremony was broadcast live on the social media accounts of SCFD, in addition to YouTube. Dignitaries present at the awards ceremony included HE Waleed Al Sayegh, Director General of SCFD; Nasser Kashwani, Secretary General of the Award; and members of the General Secretariat of the Award; as well as representatives of official sponsors and winners of the Award.

Speaking at the event, HE Waleed Al Sayegh said that the Financial Performance Excellence Award aims to raise the level of efficiency and effectiveness in managing financial resources, preserving public money in various government entities, and upgrading the level of human cadres.

The Award plays an important role in enhancing the spirit of competition among employees, developing the tasks and services of financial departments in various government departments and institutions, and bringing about a qualitative shift in the mechanism of work, he added.

SAIF ZONE AND HFZA TO HOST TWO DRIVER TRAINING UNITS

Sharjah Driving Institute to develop two training units at SAIF ZONE and HFZA which will be fully equipped with all tools and devices for those wishing to obtain a driving license.

In a bid to enhance and strengthen public-private partnerships, the Sharjah Airport International Free Zone Authority (SAIF ZONE) and the Hamriyah Free Zone Authority (HFZA) signed two memorandums of understanding (MoU) with the Sharjah Driving Institute (SDI) to develop two driver training units in both free zones.

The MoU, signed by Saud Salim Al Mazrouei, Director of SAIF ZONE and HFZA, and Thabet Al-Tarifi, Chairman of SDI, seeks to boost cooperation between both parties to achieve their common objectives and provide distinctive and highly efficient services to achieve their aspirations. The MoU was signed in the presence of Tariq Al Saleh, Chief Executive Officer, SDI, and several officials from both sides.

Under the agreement, SDI will be developing two training units fully equipped with all tools and devices for those wishing to obtain a driving license. This comes as part of SDI's plans to help qualify drivers by providing them with the necessary skills and safety instructions, in accordance with the highest training quality standards.

Commenting on the signing, Saud Salim Al Mazrouei said: "The signed agreements come within the framework of the Sharjah Seaports & Customs and the two Free Zone Authority's strategies and objectives. We are looking forward to achieving fruitful cooperation with SDI which provides a wide array of value-added services for investors and customers."

"We will provide all facilities for this exceptional service in the free zones to help our investors and customers save time and effort," he added.

Al Mazrouei underlined that Sharjah's free zones are always keen to enrich their customers' experiences and enhance their ease of doing business. He pointed out that the relentless efforts undertaken by the free zones to innovate services and launch initiatives that contribute to promoting enterprises were done in accordance with the highest international standards.

According to Thabet Al-Tarifi, "The agreement reflects our commitment to enhancing public-private partnerships to provide outstanding services in accordance with the SDI's strategy aimed at expanding the scope of services across the emirate, within a distinctive work system that helps to achieve our ambitions."

SAIF ZONE, HFZA, SIGN MoU WITH SHARJAH MUNICIPALITY

TO SUPPORT DIGITAL TRANSFORMATION

The MoU will save investors time, and facilitate, quicken, and simplify procedures for completing transactions.

Sharjah Airport International Free Zone Authority (SAIF ZONE) and Hamriyah Free Zone Authority (HFZA) have jointly signed an MoU with Sharjah Municipality to support their digital transformation vision, enhance cooperation, and upgrade work mechanisms.

Saud Salim Al Mazrouei, Director of SAIF ZONE and HFZA virtually signed the agreement with Thabet Salem Al Tarifi, Director General of Sharjah Municipality, in the presence of senior officials.

In a statement, Al Mazrouei said: "The MoU will save investors time, and facilitate, quicken, and simplify procedures for completing transactions. It will also help all involved parties benefit from each other's technical competencies."

He added: "The services to be linked online include the medical fitness certificate and the local marketing certificate."

The newly signed MoU will also ensure that all standards and information security controls are applied to the electronic link to protect it from risks and lay the foundations for joint strategic cooperation.

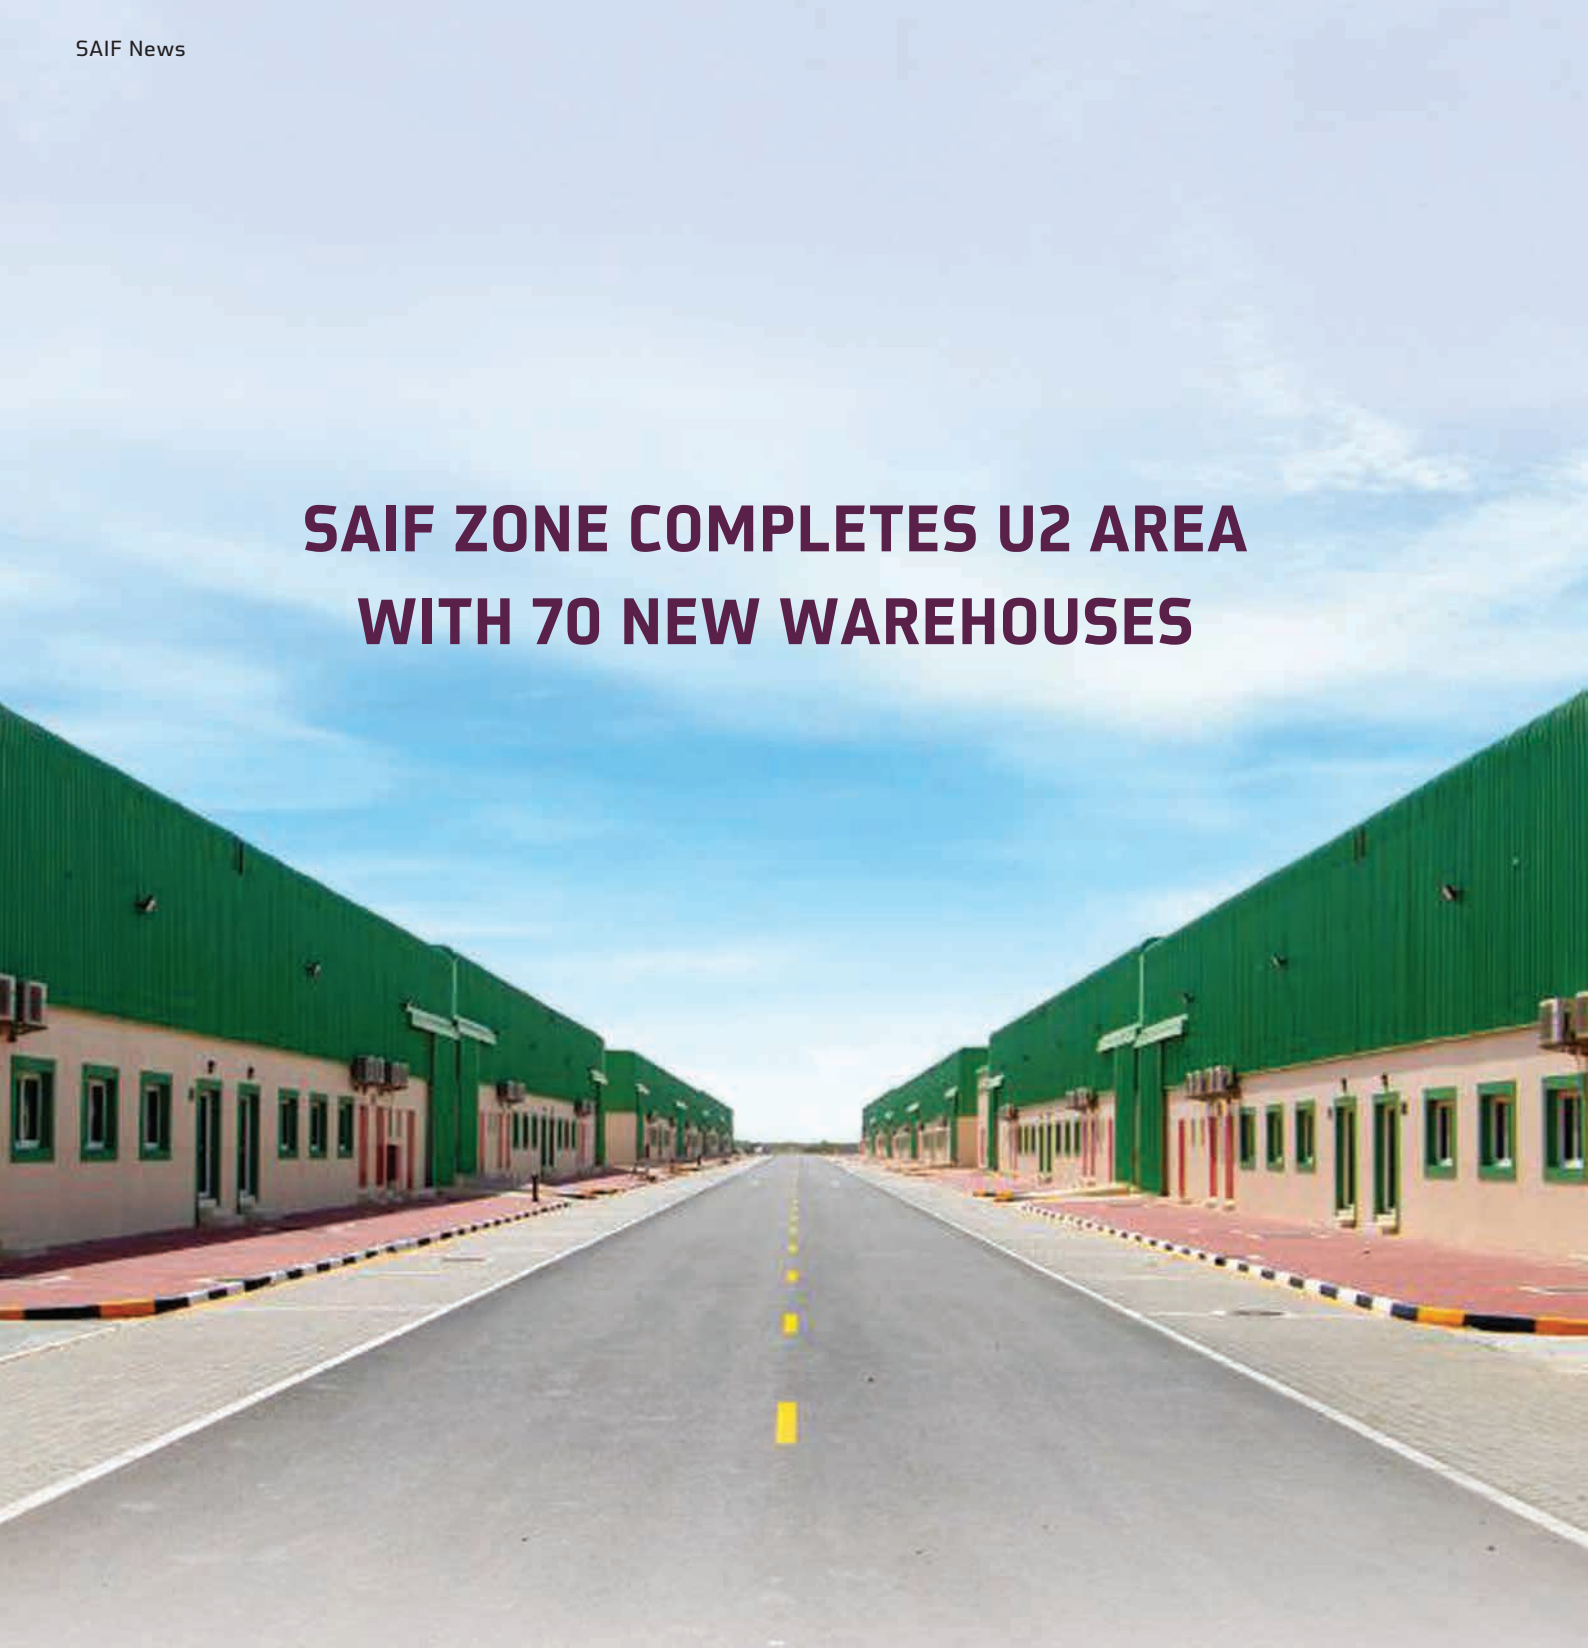

Commenting on the digital transformation journey of both the free zones, Al Mazrouei said: "HFZA and SAIFZONE's cooperation with Sharjah municipality reflects our great interest to strengthen working mechanisms and keep pace with the latest technical developments to ensure that investors get the finest services."

The new MoU will further support Sharjah's vision to develop the emirate's digital system, provide and facilitate access to various services of top-notch quality, he added.

"The two free zones' policies attach utmost importance to forging strong cooperation with leading information technology institutions and companies, something which would definitely contribute to enhancing their work and upgrading their services according to the highest international standards followed. This is in line with the plans set by the government to accelerate the completion of transactions smartly and safely," said the Director of the free zones.

Al Tarifi said the new deal reflects Sharjah Municipality's keenness to bolster its cooperation with all entities across various disciplines, especially the digital sector, to support Sharjah's vision of developing digital solutions to streamline services to citizens and residents across Sharjah.

SAIF ZONE COMPLETES U2 AREA WITH 70 NEW WAREHOUSES

The 600 square metre warehouses and mergeable stores have advanced cooling systems, and roof designs to help reduce heat absorption.

The U2 area represents a qualitative addition to the extensive range of privileges that SAIF ZONE delivers to its customers and is an added value for companies to enhance their industrial and export operations.

RULER OF SHARJAH INAUGURATES KHORFAKKAN AMPHITHEATRE

His Highness Sheikh Dr. Sultan bin MuhammadAl Qasimi, Member of the Supreme Council and Ruler of Sharjah, inaugurated the Khorfakkan Amphitheatre on December 14, 2020, in the presence of His Highness Sheikh Sultan bin Mohammed bin Sultan Al Qasimi, Crown Prince and Deputy Ruler of Sharjah, and Her Highness Sheikha Jawaher Bint Muhammad Al Qasimi, wife of His Highness the Ruler of Sharjah and Chairperson of the Supreme Council for Family Affairs.

His Highness also inaugurated the waterfall tourist destination and attended the first screening of the historical cinematic epic "Khorfakkan".

Built on a total area of 190,000 sq ft, the stunning Roman-style Khorfakkan Amphitheatre is Sharjah's latest cultural and architectural landmark. Strategically located on an elevated hillock at the foot of the Al Sayed mountain, the amphitheatre offers sweeping views of the Khorfakkan Corniche. This open-air semi-circular space boasts an imposing stone façade made up of 235 arches and 295 columns and can host 3,600 people at a time.

The amphitheatre contains a distinctive lobby and accompanying services with a total area of 75,000 square feet. The lobby is equipped with six main elevators, divided into two entrances with three elevators for each entrance, to serve visitors and facilitate their movement in the amphitheatre. It can also accommodate people with special needs.

Adjacent to the Khorfakkan Amphitheatre is a unique attraction, Waterfall Cave, boasting an intriguing cave-like design and situated inside a natural mountain cave, offering vantage views of the picturesque coastal city and its beaches. It is 45 metres long, 11 metres wide, and is located at a height of 43 metres above sea level, consisting of a number of windows through which one can see the waters of the waterfall sloping from the top of the cave above to the bottom of the mountain.

Equipped with the latest technologies, the

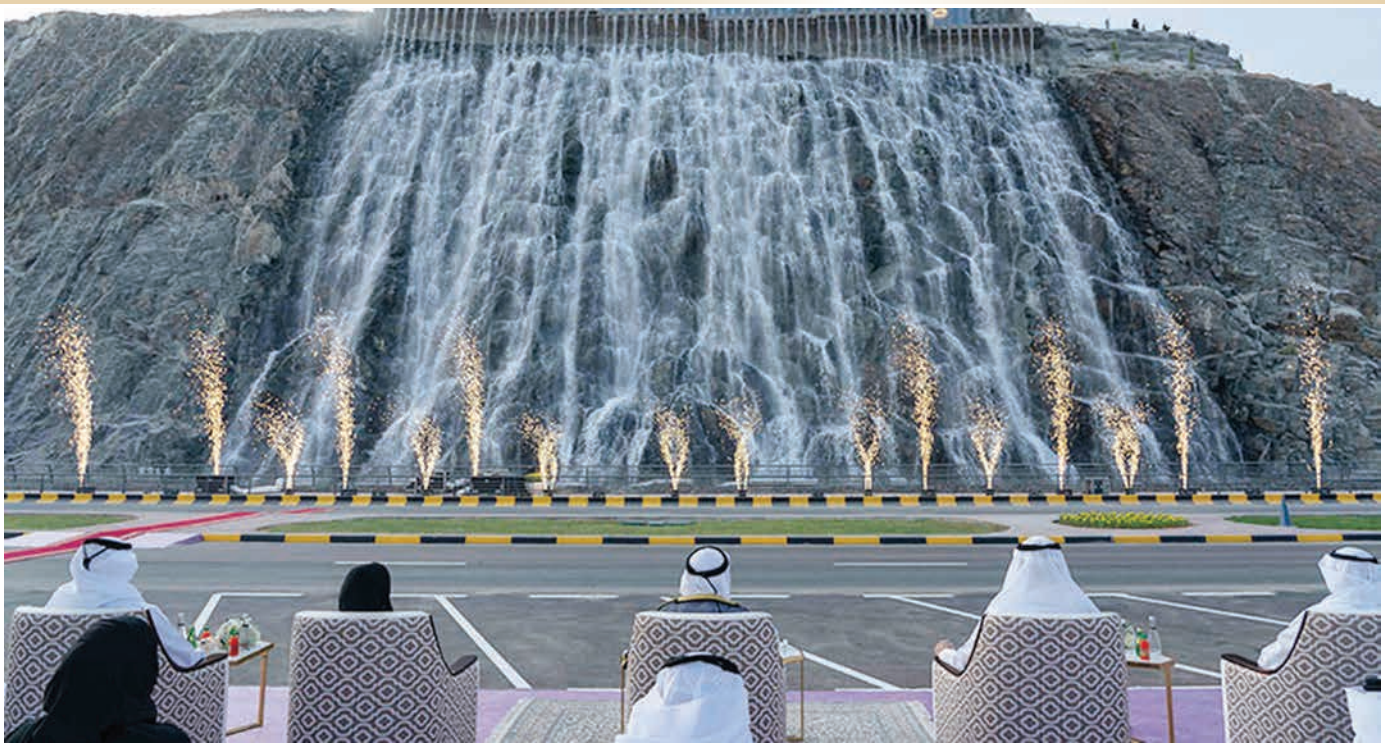

attraction can be used for both business meetings and leisure. The waterfall is linked to the Khorfakkan Amphitheatre by elevators and a walkway that allows visitors to spend an enjoyable time together.

New cultural attraction to be a driving economic force

Commenting on the new cultural attraction of the emirate of Sharjah, Saud Salim Al Mazrouei, Director of Sharjah Airport International Free Zone Authority, said: "The spectacular Khorfakkan Amphitheatre is a new iconic cultural landmark in Sharjah and marks an important milestone in the emirate's development journey. This prominent tourist destination heralds a brighter future for Sharjah as it serves to stimulate new economic growth by ushering lucrative business and employment opportunities in retail, hospitality and heritage sectors."

The inauguration of Khorfakkan Amphitheatre was marked by the screening of epic period film, 'Khorfakkan', produced by Sharjah Broadcasting Authority. Shot extensively over Khorfakkan's shores, its farms, mountains, and other parts of the ancient city, the epic film is based on the historical book, 'Khorfakkan's Resistance Against the Portuguese Invasion of September 1507', by His Highness Sheikh Dr. Sultan Bin Muhammad Al Qasimi, Supreme Council Member and Ruler of Sharjah.

The two-hour SBA production represents an accurate cinematic depiction of the historic event and highlights the epic resistance put up by Khorfakkan's inhabitants as Portuguese naval commander General Afonso de Albuquerque and his forces sought to take control of the city.

RNG THINKS OUTSIDE-THE-BOX TO RIDE THE WAVE OF COVID-19

"THE WAY TO GET STARTED IS TO QUIT TALKING AND START DOING" RNG AUDITORS SHOW US HOW

At a time when companies the world over are downsizing, cutting costs, laying off staff, and placing all expansion plans on hold, UAE-based RNG Auditors who have recently set up a branch office at the Sharjah Airport International Free Zone Authority (SAIF ZONE), capitalised on its 'out-of-the-box' thinking approach to ride the wave of COVID-19.

A complete service provider in the field of Auditing, Accounting and Business support, RNG Auditors is a firm believer in the maxim attributed to Walt Disney, American animator, entrepreneur, film and television producer: "The way to get started is to quit talking and start doing".

Established in the year 2015 with just two partners, RNG Auditors today has a well-established team of 12. Recently, it opened its branch office at SAIF ZONE and commenced its India operations as well. The company is also a SAIF Registered Agent (SRA) and listed as an approved auditor in all the major free zones in the UAE, including offshore registered agents with JAFZA and RAKICC.

With a vision to provide high quality professional services in a timely, efficient and innovative manner, the company offers services in the following disciplines: Audit & Assurance, Accounting & Payroll Consultancy, Taxation, Trade Finance Banking, CFO Services, Company Formation, Business Process Re-engineering (BPR), and ERP Implementation Consultancy.

In a statement, the company said: "RNG and its team would like to take this opportunity to salute and thank the leadership and vision of the UAE Government for the exceptional initiatives in managing the pandemic efficiently. We are humbled by the sacrifices of our frontline heroes and applaud their efforts in battling the COVID-19 pandemic."

ULTIMATE POWER SOLUTION INNOVATING TO MEET CHANGING CUSTOMER NEEDS

ULTIMATE POWER SOLUTION FZC NOT ONLY PROVIDES POWER BUT AIMS TO PROVIDE ALL THE SOLUTIONS TO POWER.

Engaged in the business of importing, assembling, trading, and manufacturing in generators, Ultimate Power Solution FZC (UPS) was established in 2008 at the Sharjah Airport International Free Zone Authority in Sharjah, UAE.

Under the Chairmanship of Khaled Al Nablsee, the company has emerged as one of the leaders in supply, logistics and manufacturing of a wide range of generators and all other types of power stations.

Protective Equipment Compliance

Several new products manufactured at Ultimate Power Solution have received certificates of compliance from authorised bodies after audits of its product quality system covering the design, manufacture, and final inspection of the certified products. The products include sanitising booth and flap barrier gate, flap gate, speed gate, glass slide gate, with e-gate, including smart screen to check the mask and body temperature.

The Environment Management System of UPS was also independently assessed and has been found to be compliant with the requirements of ISO 14001:2015 to undertake the following scope of activities: manufacturing and assembly of diesel generators, sound proof canopies, electric panel board of diesel generating sets, spare parts of diesel generating sets and tower lights with diesel generating sets, sanitising booth and related accessories, and medical sanitising with or without the screen for checking the mask and body temperature.

Expanding footprint

In 2012, the company expanded its footprint to British Virgin Island, UK, and established a presence in Moscow, Russia, the same year. In 2013, it set up office in Shanghai, China.

TECHINVENTION JOINS THE FIGHT AGAINST COVID-19

TECHINVENTION'S UNIQUE AND INTEGRATED APPROACH FOR RECOMBINANT VACCINE AND MONOCLONAL ANTIBODY/IES COULD BE THE SOLUTION THE WORLD IS LOOKING FOR.

As the enormous scale of the humanitarian and economic impact of the COVID-19 pandemic continues to cause repercussions across the globe, Techinvention Lifecare FZE, established in the UAE in 2019 with the primary objective of enabling Novel Essential Biologics in the emerging markets and developing world, is offering a unique and integrated approach for recombinant vaccine and monoclonal antibody/ies to combat the current challenges of vaccine development.

The approach includes the development of recombinant subunit combination vaccine (CoviTech™) and fully humanized monoclonal antibodies (TechmabTM) against COVID-19 using Techinvention's established Pichia pastoris platform for both the approaches. The platform is clinically proved and well established. This encompasses the therapeutic as well as a prophylactic approach against the disease.

Advantages of the process:

1. No need for a dedicated manufacturing facility
2. Possible to manufacture other Recombinant yeast-based vaccines on a campaign basis
3. No requirement of high containment for manufacturing (Upstream process BSL 2 & Downstream Process BSL 1)
4. High yield and productivity, cost-effective process, and product development
5. Ease of scale-up
6. Molecule homogeneity post-translational modifications
7. Stable production strain
8. Novel Adjuvant

Techinvention believes this integrated approach is the need of the hour for low- and middle-income countries to ensure equitable access at an affordable price point, and that together, the vaccine and monoclonal antibodies will provide a relatively comprehensive combination to tackle and control the spread and progress of COVID-19.

Techinvention have filed a couple of patents and trademarks for these products.

EURO GLOBAL TRADING STAYS 'UNITED, SAFE, HEALTHY' DURING THE PANDEMIC

EURO GLOBAL TRADING (FZC)

"Our biggest achievement during the pandemic was keeping our staff healthy, protected, and safe. we value our work force. we respect them."

As suppliers of specialised building material to various prestigious projects in the UAE, what is driving the success of Euro Global Trading (FZC) is its commitment to time-bound delivery, an excellent client support service, an experienced project management team, reliable and efficient services, and the support of multiple associate business partners.

Since its founding in 2007 at the world-class hub of the Sharjah Airport International Free Zone Authority (SAIF ZONE), Euro Global Trading (FZC) has been driven by its mission to excel in serving the UAE by rendering goods and services of the highest and uncompromising value.

Placing employees first during the pandemic

According to Jimmy F. Mehta, Managing Director, the biggest achievement of the company during the pandemic was its ability to keep its staff healthy, protected, and safe, and the fact that no retrenchments were made.

He added: "We kept our offices open on all working days with full attendance. To improve their immunity, staff continue to be provided Vitamin C 1000 mg plus Zinc 10 mg immune booster since March 05, 2020. All the staff wore face masks, maintained physical distancing at work, and used hand sanitisers."

"We value our work force. We respect them," said Mehta, adding that placing employees at the heart of its operations enabled the company to get orders for the EXPO pavilions and DEWA sub-station projects in the UAE, and a resort project in Bahrain, despite the difficult period.

The entire staff tested negative in May 2020.

He added: "We sailed through this difficult period together - united, safe and healthy."

SKY-BIZZ: AN UNDISPUTED LEADER IN THE AVIATION BUSINESS

•S K Y B I Z Z•
Aviation Services to Make Your Business Fly

An ISO 9001-2015 certified company, Sky-Bizz provides superior services in aircraft handling leasing, chartering, freight forwarding, flight representations, ground handling, and landing permits to cater to the most demanding requirements of its clients.

As a one-stop-shop for all aviation services requirements - whether it is aircraft leasing or freight forwarding, Sky-Bizz channelled its services for the repatriation of Pakistan nationals from the UAE during the outbreak of the coronavirus disease earlier this year. As passenger flight services came to a standstill to limit the spread of COVID-19, Sky-Bizz chartered 51 flights from Sharjah International Airport to various destinations in Pakistan.

This humanitarian gesture did not go unnoticed as His Excellency Ahmed Amjad Ali, Consul General of Pakistan in the UAE, appreciated the services rendered by Sky-Bizz to assist stranded and needy passengers at a time of need.

Range of superior aviation services

An ISO 9001-2015 certified company, Sky-Bizz provides superior services in aircraft handling leasing, chartering, freight forwarding, flight representations, ground handling, and landing permits to cater to the most demanding requirements of its clients, and provide them with the most cost-effective solutions. Other main services include customer engagement resource plan, warehouse services, and custom clearance services.

The company also partners with its customers to meet schedules and budgets while upholding quality and safety to the highest standards.

Based at Sharjah Airport International Free Zone Authority (SAIF ZONE), Sky-Bizz aims to be the leading player in the aviation industry in the UAE and its staff are well versed in handling import and export requirements and are therefore able to offer a range of comprehensive services to its international customers.

CIT'S OZONE GATES INTRODUCES INNOVATIVE DISINFECTION TECHNOLOGY TO COMBAT COVID-19

Ozone Gates (O_3) is an innovative disinfection and cleaning cabin for sanitation and disinfection of public and private spaces. It is chemical-free, 100% natural, and eco-friendly.

As the first company in GCC and MENA to develop Inspection Robots for the oil and gas, mining, municipal aqueducts, petrochemicals, cleaning, and multiple sectors, Creative Innovation Technology (CIT) – headquartered at the Sharjah Airport International Free Zone Authority (SAIF ZONE) – is also the manufacturer of Ozone Gates (O_3), an innovative disinfection and cleaning cabin for sanitation and disinfection of public and private spaces.

Today, as the coronavirus pandemic continues its spread around the globe, the ozone methodology is a weapon in the global fight against COVID-19 as generated ozone can be used in most human living environments to kill the novel coronavirus and clean the air.

According to Veronica Santa Cruz, Co-Founder & Director of CIT, "We are currently developing Ozone Gate to limit the spread of the virus. The technology offers three vital benefits: it is chemical free and provides 99.99% virus and bacteria removal; it is 100% natural and organic; and is eco-friendly."

A range of advanced automation solutions

CIT also creates a wide range of advanced solutions for the oil and gas, subsea, energy, mining, asset maintenance and integrity, utility, defense, disinfection, and cleaning industries, and is constantly in pursuit of automation in the global market with robotics, computer vision, lean manufacturing, autonomous machine driving, visual perception, adaptive autonomy and material handling.

Veronica Santa Cruz said: "Together with three types of inspection robots, we are ready to start developing cutting-edge robots for other sectors. Within five months of being in the business, we have brought together the best experts and artists in the robotics and technology industry."

The CIT product line includes Robots; Robotdrill, a compact machining center; Roboshot, an Electric Injection Molding Machine; Robonano, an ultra-precision machine; field system in robotics; Ozonbox, a 3-in-1 Ozanator-ionizator that eliminates up to 99.9% of air bacteria and pathogens; and Virtual Reality and Augmented Reality.

One of the most innovative design in the product range is a robot for cleaning surfaces such as buildings or houses.

Other key products are the Insptractor Crawler - an inspection robot for the oil and gas industry that combines advanced camera technology and precision maneuverability with power, reliability and functionality; and the Jet Clean, a complete, automated, industrial cleaning and inspection system that performs high pressure water jetting, air lance drying, non-destructive testing and visual inspections of the heat exchanger.

With creative and innovative high-tech designs, CIT manufactures all its products at its highly automated factory located at its UAE headquarters in SAIF ZONE. All production, from part machining to final assembly and testing, is done here.

SAM PRECIOUS METALS THE FIRST CHOICE IN PRECIOUS METALS REFINERY

With a great reputation for the highest standards of reliability in refining, testing, and melting, SAM Precious Metals FZ LLC is renowned for its bespoke refined gold and silver products.

SAM Precious Metals FZ LLC is one of the top refineries in the region and a leader in the precious metal industry in terms of customer experience, service, reliability, efficiency, and quality. The company connects countries in need of precious metals with its refineries, hallmark centres, fine and value-added products, minting houses, and testing laboratories, amongst other facilities.

Headquartered in Dubai, SAM Precious Metals (SPM) meets the highest standards of operations in the gold and silver industry and established its presence at Sharjah Airport International Free Zone Authority (SAIF ZONE) in December 2019 for exclusive silver operations. This branch is equipped with cutting-edge technology to properly refine and mint silver produced in-house.

With a great reputation for the highest standards of reliability in refining, testing, and melting, SPM is renowned for its bespoke refined gold and silver products. The company has the capability to produce the highest quality of casted gold and silver bars and grains and minted gold and silver bars (rectangle and oval). Purity can be customised as per customer requirements.

Besides all types of bars, SAM Precious Metals is also one of the main suppliers of different types of chemicals. The factory is equipped with cutting-edge technology and machinery which is operated by a highly professional and well-trained team.

SAM Precious Metals is a new concept in precious metals industries born out of the unparalleled experience and long-term vision of Mr. Sami Abu Ahmad. The name symbolises beauty and refers to the alloy of gold or silver and the veins of gold and silver in stone.

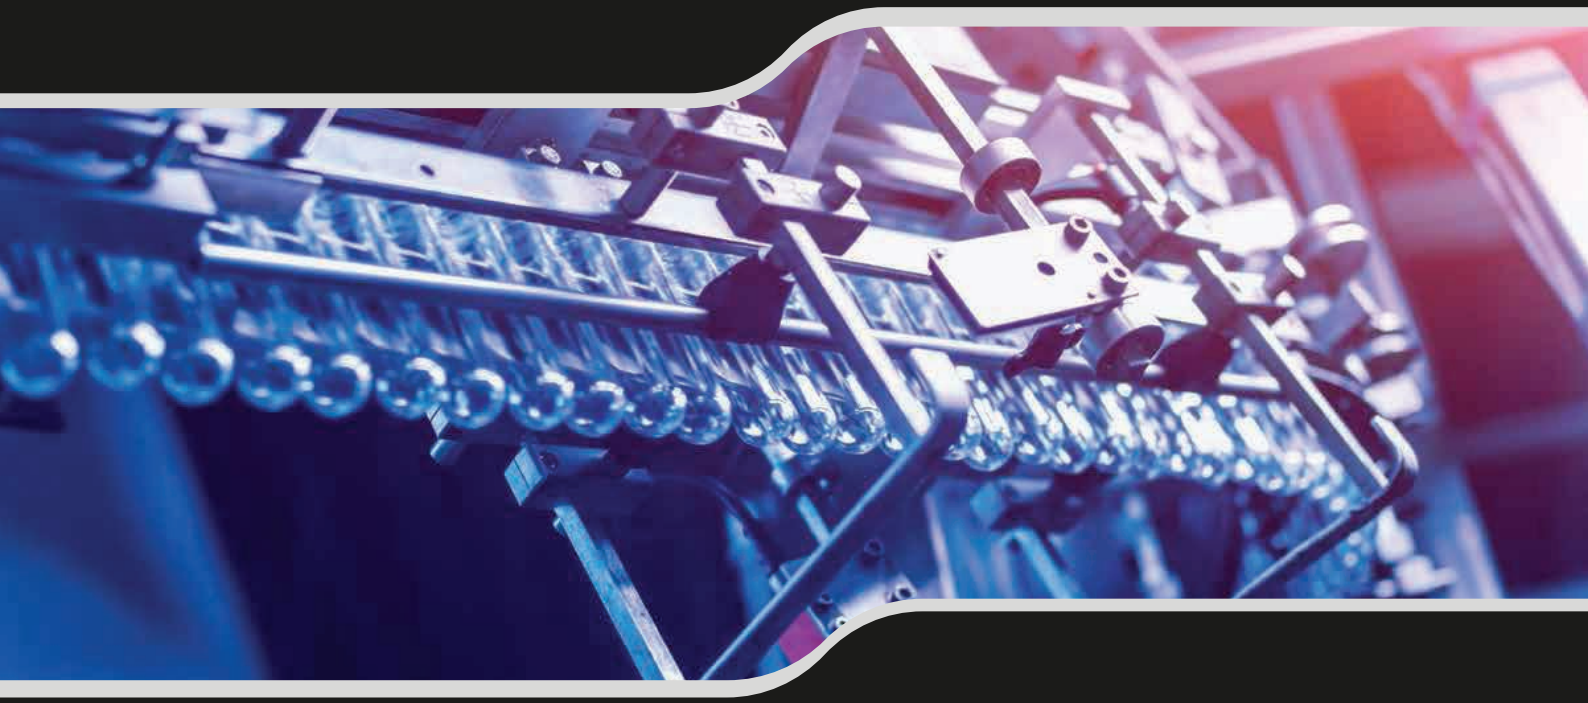

Set up with a vision to be the first choice for customers by providing premium services and delivering the highest quality of value-added products, SAM Precious Metals has received several accreditations from the highest standards organisations that attest to its high excellence in quality management systems.

The company aims to operate with the highest industry standards to produce the best quality products in a responsible manner. SPM has also partnered with local and regional organisations to uphold the values and principles of fair trade of precious metals. The company's vision is to connect gold producing and consuming countries by establishing 13 branches with proper working capital worldwide.

WELLBING DELIVERS EXCELLENCE THROUGH EMPHASIS ON QUALITY AND SAFETY

WELLBING
MACHINERY

Wellbing Packaging Machinery is founded on the concept of "Best Never Rest" and is a dedicated turnkey project provider for various water, juice, and beverage manufacturers.

A regional leader in supplying equipment for the bottled water & beverage industries, since 2011 Wellbing Packaging Machinery has been providing safe and reliable systems for converting water into pure, fresh water and packaging for human consumption.

The sole agency for China's best quality machinery manufacturers, Wellbing is founded on the concept of "Best Never Rest" and has been providing customers with the best machinery, design, and services to fully meet customer requirements.

Today, Wellbing is a dedicated turnkey project provider for various water, juice, and beverage manufacturers. Its leading businesses encompass water treatment, PET bottled drinking water production line, 5-gallon drinking water production line, cupped drinking water production line,carbonated drinks production line, and juice production line, amongst many more.

Purifying water is a responsible business and Wellbing Packaging Machinery takes this responsibility to a completely new level with its focus on both quality and safety. The company designs, installs, and commissions water plants that are extremely reliable and user-friendly even in the toughest conditions. In its constant endeavour to adapt to new and superior design and technology, Wellbing strives to always deliver excellence and uses the finest components available worldwide.

In pursuance of its goal of providing customers with personalised service. Wellbing has set up an engineering centre to promote the smooth implementation of the key projects. Currently, the company has an outstanding project design and implementation team capable of undertaking installation and commissioning tasks for more than 10 key projects simultaneously.

The company has a well-earned reputation for providing prompt and efficient after-sales service anywhere in the world, including timely provision of high-quality spare parts to save the client's time, increase efficiency, and improve speed.

Successfully serving over 100 premium customers across the MENA region, Wellbing Packaging Machinery is poised to enhance its innovation on both machinery and services to create increased benefits for its valued customers.

SAIF ZONE RETAINS COVETED STATUS AS SUPERBRAND 2020

The Superbrands Award is a recognition of the excellence and leadership provided by the free zone in delivering high-quality services in accordance with UAE and international standards.

For the second time in a row, the Sharjah Airport International Free Zone Authority (SAIF ZONE), has been awarded the 'Superbrands' title for 2020 by Superbrands Worldwide, based on votes cast by the Superbrands Council and more than 2,500 marketing experts from the UAE business community.

The Superbrands Council consists of eminent industry figures who are invited to vote online from a shortlist compiled following meticulous research and surveys, and a strict selection process. To be voted as a Superbrand by this independent Council is a powerful endorsement and evidence for existing customers, potential customers, the media, suppliers, investors, and employees of each brand's exceptional status.

Commenting on the announcement, Saud Salim Al Mazrouei, Director of SAIF ZONE, said, "The Superbrands Award is a recognition of the excellence and leadership provided by the free zone in delivering high-quality services in accordance with UAE and international standards. It reaffirms the strength of our brand, supported by our excellence in management, strategy, marketing, and customer service. Achieving the Superbrands status is a well-deserved endorsement of the quality of services we provide, and the strength of the relationship we have built with our customers, clients and our own employees over the past 25 years."

He added: "This award is a local, regional and global recognition that SAIF ZONE has succeeded in achieving its vision to be a major hub for qualitative investments and global businesses in the region."

Participation in Superbrands is by invitation only and is offered to the most outstanding brands in their field. Attaining Superbrands status strengthens a brand's position, adds prestige, and reassures consumers and suppliers that they are buying the best brand in its category.

SAIF ZONE is one of the oldest, largest, and fastest growing free trade zones in the Middle East and includes more than 8,000 global companies operating in a variety of economic sectors. The free zone offers impressive advantages in the form of superior infrastructure and facilities, a single window solution for all administrative services, several tax exemptions, repatriation of capital and profits, full business ownership, and easy access to global markets.
